

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT.

SALEM, Oregon, December 15, 1906.

I have the honor to submit this, my fourth and last report of this department of the State Government, embracing the period from October 1, 1904, to September 30, 1906, inclusive.

As heretofore, it contains all the statements and exhibits required by law and such others as are deemed necessary to give full information as to the financial transactions of this department during the period embraced, and such as are necessary to give a full understanding of the financial concerns of the State, and of the receipts and disbursements of the public funds in detail.

All claims accruing prior to October 1, 1906, presented for payment up to October 20, 1906, were audited before closing the report, and have been included, so as to embrace all transactions occurring during the biennial period intended to be covered by the report.

The character and arrangement of the statements and tables herein are the same as in my preceding report. The following is a list of the statements and exhibits:

Statement I. Summary of cash receipts and disbursements of the various funds. (Pages 1-12.)

Statement II. Semi-annual balances in the treasury reported to the Governor. (Pages 13-14.)

Statement III. Balances September 30, 1904, of the General Fund appropriations of 1899-1900, amounts drawn and balances unexpended September 30, 1906. (Page 15.)

Statement IV. Balances September 30, 1904, of the General Fund appropriations of 1901-1902, amounts drawn and balances unexpended September 30, 1906. (Page 15.)

Statement V. Balances September 30, 1904, of the General Fund appropriations of 1903-1904, amounts drawn and balances unexpended September 30, 1906. (Pages 16-19.)

Statement VI. Amounts of the General Fund appropriations of 1905-1906, purposes for which appropriated, receipts special funds from October 1, 1904, to September 30, 1906, inclusive, amount of warrants drawn, and balances unexpended September 30, 1906. (Pages 20-30.)

Statement VII. Amount of "certificates of evidence of allowance of claim" issued for expenses authorized by law. (Page 30.)

Statement VIII. List of claims filed and disallowed and referred to the Legislature for action. (Pages 31-32.)

Statement IX. Amount of taxes due from the several counties of the State September 30, 1906. (Page 33.)

Statement X. Abstract of the levy of taxes for the year 1905, and summary of the assessment of the State for the year 1904. (Pages 34-38.)

Statement XI. Abstract of the levy of taxes for the year 1906, and summary of the assessment of the State for the year 1905. (Pages 39-53.)

Statement XII. Alphabetical list of all corporations filing articles of incorporation and the amount of fees paid by each. (Pages 54-83.)

Statement XIII. Alphabetical list of trade marks filed and recorded. (Pages 84-89.)

Statement XIV. List of Commissioners of Deeds for Oregon. (Page 90.)

Statement XV. List of Executive appointments. (Pages 90-93.)

Statement XVI. Biennial appropriations for the several State institutions, and expenditures thereof, from January 1, 1889, to September 30, 1906, inclusive. (Pages 94-105.)

Statement XVII. State census 1905 by counties. (Pages 106-107.)

Besides the foregoing statements will be found abstracts of votes cast at the general election held June 4, 1906, for State officers and on measures and questions referred to the people (page 107) and statements showing the expenses of the various counties of the State for the years 1904 and 1905 (page 107).

The exhibits following show the disbursement from each separate appropriation and special funds, together with a list of warrants drawn in payment of each claim. Itemized vouchers covering every claim are on file and subject to your inspection and order.

It is the aim, in submitting the above statements and exhibits, to bring before the Executive and your Honorable Body every fact that bears upon the financial condition of the State, so that in dealing with the questions of appropriations and other important financial matters which will be brought before you, and which you will be called to pass upon, you may have a full and complete understanding of the situation.

REFERENDUM OF APPROPRIATION BILL.

In order that one may obtain a clear understanding of the financial condition of the State it is necessary to preface any report thereon by explaining the referendum on House Bill No. 370 (Chapter 229, Laws of 1905), passed by the last Legislature appropriating money for the payment of the expenses of the maintenance, repairs, improvements, and equipment and general expenses of the asylum, penitentiary, reform, deaf-mute, and blind schools, and the university, agricultural college, and normal schools. It will be noticed that reference to this matter is frequently made in setting forth the financial conditions of the State. The bill was passed by the Legislature in the usual manner and filed by the Governor in this office. The sum appropriated covered the objects and purposes named for the two years beginning January 1, 1905. It contained no emergency clause, consequently could not go into effect until May 20, 1905 — ninety days from the end of the session. In the mean time we were obliged to await the uncertainty of the referendum being demanded and no warrants could be issued, as the law provides none shall be issued until appropriation is available. It was not considered advisable to issue certificates of audit and allowance to cover claims incurred during this period, for the reason that in the event the referendum was not demanded we would be obliged to call them in and issue warrants.

A referendum petition was, however, filed with the requisite number of signers, ordering the act referred to the people for approval or rejection at the regular election to be held June 4, 1906, and placed on file in this office until its approval or rejection.

Certificates of evidence of allowance of claims were then issued for all claims incurred in the maintenance of the institutions for which there is specific authority, namely, the asylum, penitentiary, reform, deaf-mute, and blind schools, and for the transportation of the insane and convicts, rewards for arrests and the returning of fugitives from justice—2,002 certificates being issued for the sum of \$419,527.11.

On June 4, 1906, the vote was had on the measure and resulted in its approval, 43,918 in favor and 26,758 against, out of a total of 99,445 ballots cast at the election.

On June 25, 1906, the Governor issued his proclamation declaring the act approved and to be in full force and effect as a law, making all the appropriations at once available, necessitating the issuance of warrants on the Treasurer in payment of the certificates theretofore issued and the auditing of the claims of the normal schools which had been running on credit since the beginning of the period covered by the appropriation.

The filing of the referendum petition was the means of increasing the cost of maintaining those institutions which the law provides shall be maintained, such as the asylum, penitentiary, reform, deaf-mute, and blind schools. Also forced those persons having claims against these institutions for supplies to either hold them or discount them to obtain cash expected when the claim was incurred, besides necessitated much additional work in this office. Just how much additional expense it has caused the State, owing to the appropriations therefor not being available, cannot be definitely stated. Increased charges for supplies probably average ten per cent, and interest claims, of which a number have already been presented, will probably amount to \$20,000, which, if an appropriation is made for their payment, will make a total expense of \$40,000.

In order to avoid this condition applying to such a number of institutions, in the future, I would respectfully suggest that appropriation bills be segregated and that an act be passed embracing the institutions located at Salem and a separate act for the university, agricultural college, and each of the normal schools.

FINANCES.

While the State has no bonded debt of any kind or outstanding liability for which there are not now funds to meet, except "certificates of evidence of allowance of claim" issued in cases where the expense was incurred in pursuance of law, this condition will not prevail longer than about January 1, 1907, after which date the Treasurer will be obliged to endorse all warrants drawn on the general fund "not paid for want of funds" for about three or four months.

From the statement following, it will be noted in the General Fund account that the excess of liabilities over assets amounts to \$330,653.81, and that the balance in the Treasury with the deferred payment of taxes is not sufficient to cover the outstanding warrants and the unexpended balances of appropriations. This condition is due to the fact that at the time of ascertaining the amount of revenue necessary for State purposes in January, 1906, the act, heretofore referred to, passed by the last Legislature appropriating money for the payment of expenses of the maintenance, repairs and improvements of State institutions, the State University, Agricultural College, and Normal Schools was not in force. The referendum having been demanded thereon, the items of expense contained in this measure for which there was not other authority of law for incurring than contained in the measure itself, could not be included in the amount of revenue necessary for State purposes. The statute provides that only items of expense to which the State will be subject under the existing laws shall be included. The total amount of these items of expense is \$371,094.40. The act being approved at the general election in June, 1906, the same went into effect and such items became a liability against the State, but cannot be provided for until the State taxes are

received from the several counties in pursuance of the computation and apportionment of State revenue in January, 1907. The payments on account thereof are not deemed delinquent until May 1, 1907.

It is impossible, at this time, to approximate the actual deficiency in revenue required to meet the payment of warrants which will be issued, until returns reach the Treasury in 1907, but it will amount to at least \$200,000.

It will also be noted that the amount of the items not included in the annual tax apportionment of 1905 and 1906 aggregate \$371,094.40, while the excess of liabilities amounts to \$339,650.81, which difference is due to receipts from sources other than the State tax exceeding the estimates contained in the apportionments.

The balances in all the other funds are sufficient to cover the outstanding warrants except in District Number Two Hatchery Fund, which is due to receipts not being paid into the Treasury until after September 30, 1906.

MISCELLANEOUS FUNDS.

Statement I, pages 1 to 12, inclusive, consisting of Exhibits A to W, shows the total cash receipts and disbursements of each fund authorized by law from October 1, 1904, to September 30, 1906, as evidenced by the Treasurer's duplicate receipts and certified schedule of warrants and disbursements filed in this office; also the balance in the hands of the State Treasurer at the close of business September 30, 1906, together with a brief explanation of the sources from which the several funds are derived, and for what purpose they may be expended. An examination thereof will show clearly the exact condition of each fund.

In my opinion, the moneys received and placed to the credit of the State Board of Examiners' Fund and the Pure Food Fund should be credited to the General Fund and disbursements made therefrom to cover the expenses for which these funds are created, in the same way as other expenses are provided for, and the laws authorizing the same should be amended so as to conform to the above suggestions.

I renew the recommendation contained in my last report that section 3541 of the Code should be amended, and the fund known as the State Agricultural College Fund abolished. By the terms of this statute the State officers, in computing the amount of revenue necessary for State purposes, are required to compute the sum of \$25,000 for the annual support and benefit of the State Agricultural College, which shall be levied and collected in the same manner as other taxes for State purposes are levied and collected, and the fund arising therefrom paid in the State Treasury and kept separate from other funds.

There seems to be no more reason why a separate apportionment should be made for this institution than for the State University, the State Board of Horticulture or the State Militia. The present method requires the State officials to make two apportionments divided among thirty-three counties of the State without accomplishing any apparent good; furthermore, all State institutions should receive their appropriations in the same manner, which would tend to simplify State finances.

A multiplicity of funds is a source of extra work, frequently tying up money needed for other purposes, and when they are disbursed through channels other than this office, as other expenses of the State government, are not always properly accounted for.

As required by section 2379 of the Revised Statutes, I have examined, semi-annually, the books and accounts of the Treasurer and the moneys on hand in the treasury, immediately reporting the result of such examination, in writing, to the Governor, Statement II of this report (pages 13 and 14), showing the semi-annual balances so reported.

STATE REVENUE.

The revenue of the State for the payment of its general expenses, authorized by existing laws or biennial appropriations of the Legislative Assembly, is derived, principally, from the annual tax levies. Receipts from corporation licenses, insurance licenses and taxes, taxes on inheritances, and from miscellaneous sources not set apart for special purposes, make up the remainder of the General Fund.

The amount of revenue to be raised annually, and which is apportioned among the several counties, is computed in January of each year by the Governor, the Secretary of State, and the State Treasurer, who are directed by law to prepare a tabular statement consisting of all items of expense to which the State will be subject, under existing laws, for the fiscal year next after the year for which the last preceding State levy of taxes was computed; also all items of deficiency, including interest on unpaid warrants left over from the previous year, the payment of which has been authorized by law; the sum of \$47,500 for the support of the University of Oregon, and the sum of \$45,000 for the maintenance of the Oregon National Guard, and the sum of \$25,000 for the support of the State Agricultural College.

When such computation is made in January following an even year, the estimated expenses of one biennial session of the Legislative Assembly, and an estimate for additional public

buildings and improvements, not to exceed \$200,000, are included. From the total sum is deducted any surplus remaining in the treasury, or unexpended appropriations, also all receipts not applied by law to some special purpose. The sum remaining is the total amount of revenue to be raised for the current year for State purposes, and is apportioned among the several counties according to the rate per cent fixed by the act of February 24, 1903, prescribing the method by which the State taxes shall be apportioned. The amount apportioned to each county is levied and collected by the county and paid over to the State Treasurer.

In preparing the computation for the year 1905, it was ascertained that the necessary expenses for the fiscal year to which the State was subject, amounted to \$1,231,554.72, including the amounts fixed by law for the maintenance of the Oregon National Guard and the support of the University of Oregon; an estimate of \$50,000 for the expenses of the Twenty-third Legislative Assembly; \$150,000 for additional public buildings and improvements, and \$76,947.42 for deficiencies incurred during the years 1903 and 1904, which latter sum included an item of \$35,881.31 for scalp-bounty deficiency. There was deducted for unexpended appropriations, \$20,853.78; excess of miscellaneous receipts for 1904 over estimate, \$27,556.09; estimated receipts from miscellaneous sources during 1905 the sum of \$182,844.85, making a total of \$231,254.72, which sum, deducted from the total estimated expenses for the fiscal year, left a total revenue to be raised by taxation for the year 1905, of \$1,000,000, which amount was apportioned among the several counties of the State in accordance with the rate per cent fixed by law. There was also apportioned among the several counties at the same time the sum of \$25,000 for the support and benefit of the State Agricultural College, making a grand total for the year 1905, of \$1,025,000 to be raised by taxation. Had the statute required this sum to be apportioned among the counties according to the total value of all taxable property returned on the summaries of the assessments of the various counties of the State, as was the method of apportionment prior to 1901,

it would have occasioned a levy of 5.45 mills on each dollar of taxable property of the State on the valuation of \$188,058,281.

In preparing the computation for the year 1906 it was ascertained that the necessary expenses for the fiscal year to which the State was subject amounted to \$1,028,909.08, from which was deducted items of surplus estimated for contemplated expenses and improvements included in the levy for the year 1905, but not applied to any specific purpose by laws then existing, amounting to \$151,615.93, leaving the total expense to which the State was then subject for the fiscal year ending December 31, 1906, \$877,293.15, including the amounts fixed by law for the maintenance of the Oregon National Guard and the support of the University of Oregon.

The decrease compared with the corresponding levy for 1904 being due to the fact that there were no existing laws making appropriations for additional improvements for the State institutions, State University, and Agricultural College, and for the maintenance of the several Normal Schools, which, had the referendum not been demanded on the act appropriating the same, would have increased this amount \$371,094.40.

From the sum ascertained to be necessary to be raised, there was deducted \$47,363.28, excess of miscellaneous receipts for 1905 over estimate; \$179,929.87 estimated receipts from miscellaneous sources during the year 1906, and \$50,000 for unexpended appropriations, making a total of \$277,293.15, which sum being deducted from the total amount ascertained to be necessary to meet the expenses of the State Government for the year 1906, left the total revenue to be raised for the fiscal year \$600,000, which amount was apportioned among the several counties of the State in accordance with the rate per cent fixed by law. There was also apportioned among the counties at the same time the sum of \$25,000 for the support and benefit of the State Agricultural College, making a grand total for the year 1905 of \$625,000 to be raised by taxation. Had the statute required this sum to be apportioned according to the total value of the taxable property within the State, a levy of 2.021 mills

on each dollar of taxable property in the State would have been required on the valuation of \$309,256,689.

In connection with the apportionment of the revenue for the State among the several counties, I would respectfully direct your attention to an error in the law, due to the change in the method of apportioning the same from a levy based on the assessment to an apportionment upon a fixed per cent; also to the section fixing the time when the annual computation shall be made. The error is also contained in the proposed bill contained in the report of the Board of Commissioners appointed for the purpose of examining and reporting upon matters of assessment and taxation. The existing law provides that it shall be the duty of the Governor, Secretary of State and the State Treasurer, when ascertaining the amount of revenue necessary for State purposes "in January in each year, when such levy is made on the assessment of an even year," to include the estimated expense of one biennial session of the Legislature and the estimated cost of such additional public buildings believed necessary by said State officers. While as a matter of fact the computations, if made in January in each year, must be made to cover the year in which the Legislature convenes, and, therefore, the law should be amended so as to read "that when such apportionment is made in an odd year" there shall be included the estimated expenses of one biennial session of the Legislature, etc.

Statements showing the items of expense in full and complete computations are, in accordance with law, included elsewhere in this report. (See Statement X, page 34, and Statement XI, page 39.)

The increase in the amount of revenue required for the years 1903 and 1904 over the average is due to items of expense to which the State was subject under existing laws enacted by the Legislature of 1903 making appropriations for the Lewis and Clark Exposition, Indian War Veterans, Portage Railway and right of way for canal, while the decrease in the amount required for the year 1905 is due to the referendum being demanded on the appropriation bill containing the appropriation

for the State institutions, University, Agricultural College and Normal Schools, and also to the deduction of the surplus for estimates made for the preceding year not being applied to any specific purpose by existing laws.

Since 1903 the revenue apportioned among the several counties has been decreased by large receipts from corporation taxes and other sources estimated for the year 1906 at \$180,000.

The following constitutes a comparative table showing the total value of taxable property, rate of levy, and revenue raised from the year 1887 to 1905, inclusive:

| Year. | Total valuation of taxable property. | Rate of levy. | Revenue raised. |
|---|--------------------------------------|---------------|-----------------|
| 1887 | \$ 84,888,580 00 | 5.5 mills. | \$ 441,420 62 |
| 1888 | 85,898,429 00 | 4 " | 343,673 71 |
| 1889 | 101,597,341 00 | 6 " | 609,584 04 |
| 1890 | 114,077,788 00 | 4.843 " | 495,483 52 |
| 1891 | 151,700,206 00 | 5 " | 758,500 99 |
| 1892 | 160,283,646 00 | 7 " | 1,121,845 51 |
| 1893 | 168,088,905 00 | 4.3 " | 722,782 29 |
| 1894 | 150,399,388 00 | 3 " | 451,198 15 |
| 1895 | 144,445,426 00 | 4.8 " | 698,838 04 |
| 1896 | 148,176,971 00 | 4 " | 572,707 88 |
| 1897 | 184,917,104 00 | 3.5 " | 472,209 86 |
| 1898 | 188,538,577 00 | 5.7 " | 761,141 89 |
| 1899 | 120,282,879 00 | 6.8 " | 757,782 13 |
| 1900 | 117,804,874 00 | 5.7 " | 671,487 78 |
| 1901 | 141,396,514 00 | 6.508 " | 920,000 00 |
| 1902 | 148,099,601 00 | 5.131 " | 760,000 00 |
| 1903 | 173,569,888 00 | 7.068 " | 1,225,000 00 |
| 1904 | 188,068,281 00 | 5.45 " | 1,025,000 00 |
| 1905 | 309,256,689 00 | 2.021 " | 625,000 00 |
| Average valuation, 1887 to 1905, inclusive | \$ 145,865,425 00 | | |
| Average rate of levy, 1887 to 1905, inclusive | | | 5.016 mills. |
| Average revenue raised, 1887 to 1905, inclusive | | 706,787 15 | |
| Highest valuation, 1905 | 309,256,689 00 | | |
| Lowest valuation, 1887 | 84,888,580 00 | | |
| Highest rate of levy, 1903 | | | 7.058 mills. |
| Lowest rate of levy, 1905 | | | 2.021 mills. |
| Greatest amount of revenue raised, 1903 | | 1,225,000 00 | |
| Smallest amount of revenue raised, 1888 | | 343,573 71 | |

While the estimated amount of revenue for State purposes for the year 1907 to be apportioned January next cannot be foretold with any degree of certainty, the necessary expense for the fiscal year will amount to approximately \$1,500,000, due principally to the necessity of providing for appropriations contained in the act upon which the referendum was ordered and which were not included in the apportionment for 1906; also to increased demands of the administrative and judicial departments and eleemosynary institutions, and further for deficiency to meet the expenses authorized for additional judges of circuit courts and district attorneys, publication of executive proclamations relating to measures proposed by initiative petitions and for public printing.

To apply on this amount there is estimated there will be approximately the sum of \$400,000 consisting of the excess of receipts from indirect sources over and above the estimate for the year 1906, and the receipts from corporation fees, insurance licenses and taxes, inheritances, etc., and also the unexpended balances of appropriations, leaving the net estimated amount of revenue required for State purposes for the year 1907 to be apportioned among the several counties, \$1,100,000.

The law makes it the duty of the Secretary of State "to suggest plans for the improvement and management of the public revenues," but in view of the very full and complete report submitted to you by the Board of Tax Commissioners upon the subject of assessment and taxation and the collection of revenue in taxes, covering fully all phases of the subject, there remains nothing which I could suggest, except to commend that report to your careful consideration.

APPROPRIATIONS.

The authorized appropriations credited upon the books of this department are shown in detail in the statistical part of this report. A comparison of general fund appropriations credited on the appropriation ledger for 1905-1906 with the appropriations credited for the two preceding biennial periods, shows a decrease of \$248,369.16 compared with the appropriation for 1903-1904, and an increase of \$480,347.63 over the appropriations for 1901-1902.

I submit herewith for your information the following table showing the total amounts of the several appropriations for the respective departments, institutions, boards, commissions, etc., and also for public improvements and other purposes, for the last four biennial periods, for the purpose of information and comparison :

| Purpose appropriated. | Appropriations 1905-1906. | Appropriations 1901-1902. | Appropriations 1903-1904. | Appropriations 1905-1906. |
|--|------------------------------|------------------------------|------------------------------|------------------------------|

| Totals | \$1,389,044 25 | \$1,795,000 91 | \$2,623,717 70 | \$ 2,275,338 54 |

An examination of the important features of the foregoing statement reveals a continuing increase in the total cost of the State government. It will be observed that the appropriations for 1899-1900 did not include appropriations for any other purpose than for the maintenance of the departments, institutions, commissions, etc., there being no appropriations for charitable institutions, except the Boys' and Girls' Aid Society, or for public improvements or purposes such as were made for succeeding terms. Furthermore, the Legislature of 1899 failed to make appropriations to cover some of the expenses authorized by existing laws, which occasioned a deficit of about \$50,000, which the succeeding Legislature was obliged to provide for. It will likewise be observed that the appropriations for 1903 and 1904 contain extraordinary items amounting to \$865,000 for the Lewis and Clark Exposition, canal right of way between Big Eddy and Celilo on the Columbia River, portage railway, and Indian War veterans.

The money appropriated for the benefit of agricultural societies and institutes has been more than doubled; for educational institutions has been increased nearly 40 per cent, and for the eleemosynary institutions the increase has been about 20 per cent. The State Insane Asylum shows the greatest increase, amounting to nearly \$100,000. The demand for repairs and additional buildings, due to the increase of the number of patients cared for, being responsible for such increase. The expense of the public printing, including deficit incurred during the preceding term, required an increase of 50 per cent.

The cause and justification of the increased biennial State expenditures, being shown by an analysis of the appropriations made for a series of years there can be little expectation of reducing the gross amount required for the ensuing term except by a radical change of policy and for that course no public demand is apparent. There is necessity for retrenchment where possible and for strict economy in every item appropriated and still hold the total within the limit reached in the preceding years. In round numbers \$2,250,000 was expended

in the payment of the ordinary expenses of the State government during the period covered by this report.

ESTIMATE OF EXPENSES.

I submit herewith the customary estimate of the several amounts required to meet the expenses of the State government as authorized by law for the ensuing biennial term. For the purposes of comparison the statement shows the several appropriations for the years 1905-1906; an estimate of the expenditures thereof, and an estimate of the amount necessary to meet the several items of expenses for the years 1907-1908. The statement also shows where the law, if any, authorizing the incurring of each item of expense, may be found. The salaries of State officers and other charges fixed by statute cannot be changed by simply appropriating a larger or smaller amount for the payment thereof, and any change in this direction must be made by amending the act fixing such charges.

I have considered carefully existing laws and present conditions in making these estimates and have based them, principally, upon the present cost of maintaining the several departments of the State government, estimates received from the various State officers, and the reports submitted by the officers of various State institutions, due allowance having been made for the increased volume of business and the increase in the number of inmates arising from the natural growth of the State.

The following statement shows the amount of the several appropriations for the years 1905 and 1906, amount thereof expended, and an estimate of expenses for the years 1907 and 1908.

A comparison of my estimate in the foregoing statement with the appropriations authorized by existing laws and made by the last Legislature does not show any greater demand than is justified by the ordinary conditions and the natural growth of the State, and none show any radical increase except those for the State Insane Asylum and the institution for the care of the feeble-minded.

The main building of the State Insane Asylum has reached the point where it is no longer deemed advisable or safe to increase its capacity by additions. The superintendent and trustees recommend the starting of a branch institution near the main building and under the same management, which will

ultimately accommodate all the female patients, thus providing separate apartments for the different sexes. The amount required for this branch and additional betterments is estimated to be \$237,000.

For the purchase of a site for a State institution for the feeble-minded, for the necessary buildings, furniture and equipment therefor an appropriation of \$150,000 is estimated as necessary by the board authorized to investigate and report upon this matter.

The demands of the State University at Eugene are keeping pace with the growth of the State and it is estimated that for the next two years an additional appropriation of \$50,000 will be required over and above the annual appropriation of \$47,500 to meet the demands of that institution.

The increase in the appropriations for the payment of the salaries of the circuit judges and district attorneys is caused by the act passed by the last Legislature providing for additional circuit judges and district attorneys.

The increased demands for printing, due largely to the initiative measures, legislative printing, election laws and blanks, library commission, board of health, and uniform series of school record books and blanks, have materially increased this expense besides creating a deficit of \$24,000.

INDIAN WAR CLAIMS 1855-1856.

The last Legislature appropriated the sum of \$45,000 to pay the balance of the claims of existing volunteers who rendered service for the Territory of Oregon during the Indian Wars of 1855 and 1856, and whose claims were filed in this office, as well as those whose claims have not yet been filed.

This appropriation has been exhausted and, as there are now on file claims amounting to \$532.61, which cannot be paid until another appropriation is made, and additional claims will doubtless be filed, an appropriation of \$10,000 is deemed sufficient to meet all claims of this character which are now unprovided for.

CONVEYING INSANE.

The act passed by the last Legislature providing for the conveying of the insane to the asylum by attendants of that insti-

tution instead of by persons designated by the county judges has effected a considerable saving in this item of expense. The cost of conveying the insane from July 1, 1905, to July 1, 1906, was \$5,668.52 for 314 patients, as compared with the period embraced from January 1 to December 31, 1904, \$14,185.50 for 375 patients.

STATE MONUMENT AT OLD CHAMPOEG.

The last Legislature appropriated the sum of \$600 for the purchase of such lands as considered necessary to constitute a proper inclosure around the monument erected at Old Cham-poeg in commemoration of the organization of the first civil government west of the Rocky Mountains, to be expended by the Governor, Secretary of State and the State Treasurer, and of such amount the sum of \$239.10 was expended for the purchase of 2.19 acres of land and the expenses incident thereto.

DEFICIENCIES.

The appropriations made by the last Legislature were sufficient to meet the expenses authorized by existing laws for all purposes, except for public printing, maintenance of the Oregon School for Deaf-Mutes, return of fugitives from justice, salaries of circuit judges and district attorneys, publication of executive proclamations, and rewards for the apprehension of train wreckers, and the total of such deficiencies will approximate \$49,000, of which one-half is for public printing.

PRINTING, BINDING AND PAPER.

The appropriation for public printing is construed to cover all printing for the Legislative Assembly, Administrative and Judicial Departments, election blanks, uniform series of school blanks, records for keeping vital statistics for the State Board of Health, agricultural societies, and all printing necessary under existing laws, except for those institutions, commissions and departments for which appropriation is made for their expenses, in which cases the printing is paid from their respective appropriations or funds.

It is impossible to prepare and present a satisfactory statement showing the amounts expended for the various purposes for the reason that part of the expense has been paid from the appropriation which is now exhausted, part has been audited and certificates issued, and a large amount of work is not yet completed.

The appropriation of \$60,000 for the two years commencing January 1, 1905, was insufficient to pay all claims presented prior to September 30, 1906, and since April, 1906, I was obliged to issue certificates of evidence of allowance of claims covering claims presented to December 1, 1906, amounting to \$14,338.92. It is estimated that claims to the amount of \$9,661.08, covering expenses for the balance of the biennial term, will be presented, making a total cost of \$84,000 for printing, binding and paper for the biennial term.

This is an increase of expenses of about \$32,000, as compared with the amount expended for the years 1901 and 1902, and \$18,000 as compared with the amount expended during the years 1903 and 1904. This large increase is due chiefly to the printing required by the last Legislative Assembly, printing and binding proposed initiative measures, additional election blanks and supplies required under the direct primary election law, library commission, State Board of Health, and the natural increase demanded by all departments.

Wherever it has been possible, I have endeavored to keep the expense of printing and binding at the minimum, but my authority to do so has been limited to such printing as is authorized by me or under the control of the boards and commissions of which I am a member. Every one seems to have unlimited authority to order as much printing as he chooses to have done, and no one has any authority to limit the amount or prescribe the manner in which it shall be done. This power and authority should be conferred upon the Secretary of State, or some other State officer, other than the State Printer, and he should be required to edit and approve every requisition for printing before the order for the same is given, and should also

be granted the authority to fix the amount of work which should be done.

Every claim for printing has been audited and allowed upon the certificate of the printing expert certifying to the measurements and rates which are fixed by law. The paper for public printing of every description has been purchased by the State Printer, and the ruling and binding required, ordered by him as provided by statute.

DISTRIBUTION AND SALE OF PUBLIC DOCUMENTS, LAWS, SUPREME COURT REPORTS, ETC.

The following statement shows the number of copies of the Code, Laws, Journals and Supreme Court Reports on hand September 30, 1904, and the number received to September 30, 1906, number distributed pursuant to statute, number sold, number on hand September 30, 1906, and cash received on account of sales and paid over to the Treasury.

The 1,500 copies of the General Laws, which Section 2430, Bellinger and Cotton's Code, provides the State Printer shall cause to be printed are not sufficient to meet the demand. The supply of General Laws of 1903 was exhausted in supplying the last Legislative Assembly, and I therefore directed the Printer to print 240 extra copies of the Laws of 1905 to be bound should the demand exceed the authorized number; this being the case these extra copies are being bound.

There is a considerable demand for copies of the Laws of 1903, which contain many important acts, notably the Inheritance Tax Law, Corporation Tax Law, Amendments to the Military Code, Providing for the Appropriation of Water, and the

Pure Food Law ; therefore, another edition of about 480 copies should be printed and a limited supply bound, as the occasion demands. This would require an appropriation of about \$750. If the price of the books was fixed at \$2.50 per copy the sales would, in time, very nearly reimburse the State for the expense incurred. Instead of providing for a fixed number of copies of the laws to be printed the number should be left to the discretion of the Secretary of State. He should also be granted authority, in his discretion, to have printed in pamphlet form such acts passed by the Legislature as there is likely to be demand for. Immediately after adjournment of each session many requests are made for copies of certain of the newly enacted laws by citizens who are particularly interested in the matters to which the laws called for relate.

There is also demand for copies of laws enacted by the people under the Initiative Provisions of the Constitution. I, therefore, believe the Secretary of State should have authority, by law, to order printed all laws for which in his opinion there is likely to be a demand.

There is now no law on the statute books providing for the regular and systematic distribution and accounting of public documents. That work is generally done from the State libraries and as the library is constantly receiving from other States public documents with a request for an exchange, it might be well to consider the advisability of a law making the library the distributing agency of all public documents and requiring it to keep an account thereof.

CORPORATION DEPARTMENT.

For nearly four years there has been in operation in this State a law requiring foreign corporations, joint stock companies and associations, doing business in this State, and corporations organized under the laws of the State of Oregon, to pay certain fees for the privilege of transacting business as a corporation. These fees consist of a declaration fee of \$50, to be paid by a foreign corporation, joint stock company or association upon entering the State for the purpose of transacting

business therein; an organization fee to be paid by a corporation organized under the laws of the State of Oregon upon filing its articles of incorporation, which organization fee is based upon the authorized capital stock of the corporation, with \$10 as the minimum and \$100 as the maximum fee therefor. In addition to the declaration and organization fee required to be paid by corporations, all corporations, foreign and domestic, organized for the purpose of gain except fire, marine, fire and marine, life, accident, life and accident, plate glass and steam boiler insurance companies and surety companies, are required to pay an annual license fee, which is a graduated fee based upon the authorized capital stock of the corporation, the minimum fee being \$10, where the capital stock shall not exceed \$5,000, and the maximum fee of \$200, where the capital stock shall exceed \$2,000,000.

The effect of this law, which was enacted by the Legislative Assembly of 1903, is very gratifying, and has resulted, as was designed by its promoters, in increasing the revenues of the State in a very satisfactory way, and distributing the burden of taxation more equitably.

From May 21, 1903, the date said Act went into effect, to September 30, 1906, the State has received through the operation of this law the sum of \$431,665.65, each year showing a marked increase over the preceding year.

On October 1, 1904, the date of the last biennial report of this office, there had been collected under the provisions of said law \$191,615.87, and from October 1, 1904, to September 30, 1906, the fees collected from this source were \$240,049.78, being an increase of \$48,433.91 over the preceding years.

Our last biennial report shows the organization of 644 domestic corporations, under the provisions of said law. There has been 1,316 domestic corporations organized under said law from October 1, 1904, to September 30, 1906, inclusive, showing a gain over the previous report of 672, or more than double.

These figures are given for the purpose of showing that the effect of said act is not such as to retard or hinder the industrial growth of the State or prevent or embarrass the develop-

ment of the State by foreign and domestic capital, but on the contrary gives legitimate enterprises a protection that did not heretofore exist. Never in the history of this State has there been, in the same period of time, so great a number of corporations formed for business undertakings as during the last two years. This, in my opinion, is indicative not only of the general prosperity of the State but of the justness of the act requiring corporations to assist in the financial requirements necessary to carry on a State government.

From October 1, 1904, to September 30, 1906, 1,145 corporations, organized for profit, filed articles of incorporation in the office, paying therefor organization fees amounting to \$28,685, and license fees for the unexpired portion of the fiscal year, \$16,820.06. There have been filed 171 articles of incorporation by corporations organized for charitable, religious, and similar purposes, paying fees amounting to \$855. There has also been filed during said period 83 supplementary articles, 131 increases of capital stock, 30 decreases of capital stock, and 219 dissolutions, paying aggregate fees therefor of \$7,607.76.

During said period 138 foreign corporations filed declarations of desire and purpose to engage in business within this State, paying therefor declaration fees amounting to \$6,650, and license fees for the unexpired portion of the fiscal year amounting to the sum of \$11,210.56, making a total collected by this department from corporations as filing fees, \$71,828.38, for the biennial term ending September 30, 1906, and there has been collected by the State Treasurer \$3,466.94 for reinstating corporations which had been dissolved by proclamation of the Governor, and \$164,754.46 as annual license fees, making a gross total collected from all sources from corporations under the provisions of said act, for the biennial term ending September 30, 1906, \$240,049.78, which sum is, as before stated, an increase over the amount collected during the last biennial term of \$48,433.91. There are 2,907 domestic corporations, organized for gain, and 325 foreign corporations, which have complied with the provisions of law and are authorized to transact business in this State.

In line with my recommendation to the Legislative Assembly of 1905, a law was enacted authorizing and requiring the Secretary of State on or before the first Monday in January each year to report to the Governor a list of all corporations which for two years or more next preceding such report should have failed, neglected, or refused to furnish any statement or pay any license fee required under any law of this State, and to authorize and require the Governor of the State of Oregon to forthwith issue his proclamation, declaring such corporations so reported to him dissolved, and their articles of incorporation revoked and repealed, and to provide the manner by which a corporation that has been so dissolved may be reinstated and entitled to its franchises and privileges.

Under the provisions of said law, I did on the 30th day of December, 1905, report to the Governor 5,456 corporations, of record under the laws of this State, which had failed to comply with law and for two years or more had failed or refused to file annual statements or pay the license fees due, and on January 20, 1906, the Governor did, by his proclamation, dissolve said corporations, and their articles of incorporation were revoked and repealed. A copy of said list of delinquent corporations and proclamation of the Governor was published as provided by law, such publication being made in the Morning Oregonian of date January 25, 1906.

Under the provisions of said law 29 of the corporations so dissolved have made application and have been reinstated and restored to all their franchises and privileges, and a certificate, in each case, issued to that effect, the amount of fees collected therefor being \$3,466.94, as before stated.

The Legislative Assembly of 1905 enacted a law providing that a corporation organized under the laws of the State of Oregon for the purpose of engaging in the business of mining for any of the precious metals, and whose business it shall be to engage in said business only, and whose annual output of products shall not exceed in value the sum of \$1,000, may, upon filing a statement setting forth said facts and certain other conditions by said act provided, be exempt from the payment of

the annual license fee provided by the act of 1903, relating to corporations, and in lieu thereof pay an annual license fee of \$10. Many mining corporations have complied with the provisions of said act and thereby received the exemption therein provided, and while it has had the effect of reducing the amount of annual license fees collected, I believe that a greater number of corporations have been formed for the purpose of developing the mineral wealth of the State than would have been under the provisions of the old law.

Taken as a whole, I believe that the act of 1903, and subsequent acts relating to licensing domestic and foreign corporations, is the best financial legislation that has been enacted in this State, and has resulted in raising more than one-seventh of the revenue necessary to support the State government, and will increase each year with the development of the resources and demands of the industries of the commonwealth.

There are a few changes necessary, however, which would increase the efficiency of said act and its equity between corporations of large and small capitalization. I therefore indorse and am in hearty accord with the recommendations made by the Board of Commissioners, appointed under the provisions of Chapter 90, Laws of 1905, for the purpose of examining and reporting on matters of assessment and taxation, etc., that the corporation organization fee be extended to the rate of \$75 per million dollars capital stock or fraction above one million dollars, and thus avoid discrimination against smaller corporations. Said Board of Commissioners has prepared a bill to this effect, which will be submitted for your consideration.

I also respectfully recommend that section 5 of the act of 1903 be amended so as to provide that any corporation failing or refusing to render an annual statement or to amend the same when required to do so by the Secretary of State, in case the same shall be incomplete, irregular, or unsatisfactory, or to pay the annual license fee for more than ninety days after the 1st day of July of the year for which such annual statement or annual license fee is due, or any corporation, joint stock company or association doing business in this State contrary to said act,

shall be liable to a fine of \$100, to be recovered, together with any license fee due, by an action at law in the name of the State of Oregon, to be instituted by the Attorney General of the State of Oregon, at the request of the Secretary of State. As the law now is these actions must be instituted by a district attorney, and I have found that on account of the numerous other duties incident to the office of district attorney that but little attention is given to the collection of delinquent license fees due from corporations when requested to do so by this office. In fact, since said act went into operation, there has not been a single action instituted for the collection of delinquent license fees by the district attorneys of the State, although lists of such delinquents have been furnished and request made that action be brought. I believe that by placing the institution of such actions in the hands of the Attorney General that many thousands of dollars will be collected that would be otherwise lost.

I also recommend that some provision be made whereby a foreign corporation, doing business in this State, may be required, upon increasing its capital stock, to file in the office of the Secretary of State a certified copy of its resolutions increasing the capital stock of the corporation, and pay the license fee on such increase for the unexpired portion of the fiscal year. This would avoid the discrimination which now exists between foreign and domestic corporations in regard to increase of capital stock.

This department has, through the examination of directories and the State papers, endeavored to ascertain and locate any and all foreign corporations doing business in this State, and require them to comply with the provisions of law applicable to such corporations, but I am satisfied that there are a large number of foreign corporations doing business in Oregon which have not and will not comply with the provisions of law until the matter is brought to them personally and some means used to compel them to file declarations and pay the fees due therefrom. In order to do this it will be necessary that a small appropriation be made for the general and traveling expenses

of this department, in order that it may send some one to the different parts of the State for the purpose of investigating and compelling such delinquent foreign corporations to comply with law. This is only just to the foreign corporations which have complied with law and paid the fees required. I am of the opinion that the expenses attached to such investigation will be small as compared with the amount of fees collected from such foreign corporations which ignore and do not comply with the provisions of law.

The work of this department is increasing with each year and is handicapped by lack of room with a vault for filing articles of incorporation and records. The room we are now using is on the opposite side of the building from the vault, where the records are kept, necessitating going from one office to the other; we also are obliged to surrender this room during the legislative sessions and seek quarters on one of the other floors. This department should have permanent quarters with ample vault and furnishings.

INSURANCE DEPARTMENT.

Under section 3706 of the Code, the Secretary of State is made *ex officio* Insurance Commissioner, and as such commissioner is charged with the enforcement of all laws of this State respecting insurance companies. This includes the duty of ascertaining whether companies making application for license to do business within the State have the necessary statutory qualifications and comply with the existing laws, the collection of annual licenses and taxes, the licensing of agents, ascertaining whether proper notice is given by withdrawing fire insurance companies that the claims of policy-holders may be properly protected, keeping unauthorized companies and agents from doing business in the State, and a general supervision over all matters appertaining to insurance.

The annual reports issued by this department April 1st of each year, which may be had upon application, contain a list of all insurance and surety companies authorized to transact business in Oregon; also statements of the total risks written,

gross premiums received, premiums returned, losses paid, as shown by the annual reports of the companies, and the amount of licenses and taxes collected for the past two years.

April 1, 1906, sixty Fire and Marine, forty-nine Life and Accident, six Plate Glass, two Steam Boiler and one Live Stock insurance companies were authorized to transact business in Oregon.

From October 1, 1904, to October 1, 1905, there was received for licenses \$4,657.44, and from October 1, 1905, to October 1, 1906, \$5,041.97.

Taxes on net premiums collected during 1904 were \$54,536.49 and for 1905, \$55,896.33.

The taxes for 1906 are not due and payable until March 1, 1907.

The risks written by fire insurance companies on property situated within the State and reported to this department for the year ending December 31st, last were \$110,830,493.34, and is \$15,299,008.50 in excess of the amount written during the year 1903. The gross premiums on these risks amounted to \$2,581,274.30, an increase of \$335,901.64. The premiums returned during the same period amounted to \$619,420.23 and losses paid \$968,839.73, leaving the net premiums \$1,009,629.53, an increase of \$401,925.06 over the year 1903.

The Marine Insurance written during the year 1905 was \$13,715,319.00, being an increase of \$3,368,893.80. The gross premiums on these risks amounted to \$87,266.07, a decrease of \$337.90. The premiums returned by this class of companies during the same period were \$1,881.04, losses paid \$66,083.52, leaving the net premiums \$41,503.89, an increase of \$1,146.02.

The gross premiums reported by the Life and Accident insurance companies for the year ending December 31st, 1905, amounted to \$2,299,378.34, an increase of \$564,103.74. The premiums returned were \$156,827.15, losses paid \$468,168.43, leaving the net premiums \$1,700,416.69, an increase of \$473,994.43.

The premiums reported by miscellaneous companies representing Plate Glass, Steam Boiler and Live Stock aggregated

\$27,128.72. Premiums returned \$1,314.51, losses paid \$12,832.59, leaving the net premiums \$22,981.62.

That the business of insurance has been constantly and rapidly increasing in the State is clearly demonstrated by the foregoing figures. They also show the growth of business and the prosperity which is at present enjoyed.

In my report to the last Legislature, I suggested the advisability of enacting some measure for the prevention of fires, which I believe is of sufficient importance to repeat in this report:

"The large fire losses invite consideration of the advisability of enacting some measure for the prevention of fires, which destroy such a large amount of property and result in such heavy losses. Insurance companies can regulate their rates according to the indemnity offered, and by increasing them may make good their losses. The rates, however, can be reduced by the adoption of measures for the prevention of fires. Many States have statutes in force authorizing the inspection of all risks and the enforcement of necessary safeguards, as well as inquiry into the causes of all fires. Aside from a saving of a vast waste, which is an absolute loss to the resources of the State, the increase in taxes would probably more than cover the expense of such investigation and inspection. The Bureau of Labor Statistics and Inspector of Factories and Workshops, might easily be charged with the inspection and investigation without any expense other than his traveling expenses. This matter, I think, is worthy of your careful attention."

Never before has the business of insurance experienced such an era of loss and disruption of business as during the years 1905 and 1906.

The appalling disaster at San Francisco, which demolished and burned the greater portion of that city, coming so soon after the Baltimore conflagration, tested to the limit the solvency of many of the large fire insurance companies, wiped out capital and surplus, the result of years accumulation, and forced a number to scale a large percentage of claims; while others failed and passed into the hands of receivers. It is estimated that as a result of this disaster the underwriters profits

of the whole United States for the past twenty years have been consumed.

The life insurance business attained an unenviable prominence on account of the charges of mismanagement of the affairs of several of the larger companies of the country, and for a number of months investigation, by legislative committees and others, has disclosed the transactions of these corporations upon which the charges were based. The disclosures reflected in the most serious manner upon the conduct of the governing bodies of these companies, and show a disregard for the interests of policy holders and beneficiaries, which is wholly indefensible. Notwithstanding these disclosures, the companies' solvency remains absolutely unquestioned and unimpaired, and, under revised management, will not only be able to fill every existing contract, but advance and extend the highly useful and benevolent purposes for which they were organized.

It should be borne in mind in this connection that the scandals and abuses disclosed by these investigations effect but a very small minority of the companies doing business in the country, and that for the rest there is a presumption in favor of honest management.

Laws have been passed by the State of New York, which it is hoped may remedy many of the evils complained of and found to exist. Believing that uniform legislation by the states might afford and provide effective and improved methods, a convention of Governors, Attorneys General, and Insurance Commissioners met at Chicago on the first of last February, and, after a discussion and careful consideration of a variety of matters connected with the subject of statutory regulations of life insurance business, referred the preparation of forms of laws to be reported to the Convention of Insurance Commissioners to a committee of fifteen of its members, report of which committee and the bills recommended have been sent to this office and are on file; also report of the commission authorized by the Legislature of Massachusetts to recodify the insurance laws of that State. It is perhaps needless to say that owing to

changed conditions the present insurance laws of this State are antiquated and out of date, and that a new insurance code should, consequently, be enacted. There are a number of changes that I might suggest. The task, however, being one of considerable magnitude, will require careful consideration, and therefore should, I think, be delegated to a special committee to report to the following Legislature, as I have heretofore recommended. The provisions of the existing laws do not provide that licenses shall be paid by several classes of insurance such as credit, burglary, plate glass, and steam boiler, and would recommend that that section, at least, be amended at the forthcoming session so as to include companies doing these classes of insurance.

Several of the largest insuring firms in Portland believe that a statute requiring a uniform form of fire insurance policy should be enacted, the same as has been adopted by a number of other States, notably New York, New Jersey, and Connecticut, where such a statute has been in force for many years with, I am advised, very satisfactory results. The objection to a multiplicity of forms was clearly shown by the recent disaster in San Francisco, where they caused misunderstanding, confusion and litigation in the settlement of losses.

Many of the companies doing business in Oregon are now issuing what is called the "Standard Fire Insurance Policy," adopted by the States above mentioned, and it seems to me it would be to the best interests of the insurers and insured in the State for the Legislature to prescribe that this form of "Standard Policy" be used by all fire insurance companies doing business in this State, and I would, therefore, recommend that this form of policy be required.

The Columbia Life & Trust Company, licensed January 26, 1906, and the Oregon Life Insurance Company, licensed April 12, 1906, for the transaction of life insurance, were formed under the General Laws of this State, in accordance with the provisions of Section 3710, Bellinger and Cotton's Code. Each has a paid up cash capital of \$100,000.00. The articles of incorporation of the Oregon Life Insurance Company provide that

any time after five years the policy holders shall have the right to purchase and own all the shares of the capital stock.

The organization of these two companies warrants the belief that we shall, after a while, have within our State several strong insurance institutions, capable of taking care of a fair proportion of this important business.

There are also six mutual fire insurance companies incorporated under the laws of this State, providing at a low cost insurance covering about \$22,000,000.00 of property. The reports of these companies seem to show successful operation.

In regard to the effect of the disaster and conflagration in San Francisco upon the fire insurance companies authorized to transact business in this State, have to report that no loss was sustained by any policy holder having contracts in this State with such companies, due chiefly, I believe, to the deposit law of this State, which requires every foreign insurance company to deposit with the State Treasurer the sum of \$50,000.00 in approved securities, to be kept for the benefit and security of persons transacting business with them in this State. The Traders' Insurance Company, of Chicago, Illinois, being unable to meet its losses, a receiver was appointed, but all claims for unearned premiums were fully secured by its deposit.

The Home Fire & Marine Insurance Company, of San Francisco, was compelled to go into voluntary liquidation, its unearned premiums being secured as in case of the other company.

An effort was made at the session of the last Legislature to repeal this law, for the reason that it prevented many companies from coming into the State who were not willing or had not the financial ability to deposit the required sum, but which, if allowed to do business, would induce competition and give heavy insurers opportunity for placing surplus risks, which it was complained companies now doing business in the State would not accept.

While there was considerable merit in favor of competition as a means of reducing rates and the placing of surplus insurance, I think it would be more than offset by the fact that it

would open the doors to the admission of a large number of companies with sufficient capital to meet ordinary conditions, but would become insolvent through conflagrations such as occurred at Chicago, Boston, Baltimore, and San Francisco, and result in losses to the policy holders of this State, similar to the losses sustained by policy holders of other States where the companies failed by reason of the conflagrations in the cities mentioned.

The laws might be amended so as to provide for the admission of companies to write surplus lines which the companies making deposit would decline to take, without requiring such companies to make a deposit.

Many States have enacted what is known as "anti-compact law." I doubt, however, the wisdom of this law for the reason that it is a very difficult law to enforce, and while the State may prohibit companies from forming a compact to charge an agreed rate, and may likewise fix the maximum rate, it cannot force them to accept the insurance of any individual. Rates of insurance are based chiefly upon losses and expenses. To reduce the former, I have directed your attention to the advisability of enacting some measures for the inspection of risks and for the prevention of fires.

FRATERNAL INSURANCE.

In my last report I discussed at considerable length the advisability of the adoption of a reasonable law for the government of all mutual life insurance companies incorporated under the laws of this State and also fraternal orders or societies. An act defining beneficiary associations and providing for their organization, regulation and control was passed at the last session of the Legislature, the measure following largely a bill prepared by the fraternal committee of the National Convention of Insurance Commissioners in conjunction with the executive committee of the Associated Fraternities of America. The act, however, was vetoed by the Governor chiefly for the reasons that it was opposed by representatives of the Associated Fraternities of America, and a section thereof exempted "all property

and funds of such associations held or used to further or carry out their authorized purposes from taxation;" also that it provided one rule of conduct for associations prior to 1900 and another one for those organized subsequent thereto. I consider it unnecessary to repeat here my views favoring State regulation and supervision of these societies or associations. I think it is sufficient to direct your attention to this important matter so that the interests of those persons compelled to carry this class of insurance may be safeguarded, and that the beneficiaries may receive the benefits they are expected to receive by the enactment of some legislation that will have the accomplishment of this end in view; also for the prevention of those associations doing business in this State organized for the purpose of catching the unwary, and for the benefit and pecuniary gain of the organizers.

SURETY COMPANIES.

September 30, 1906, there were three surety companies licensed to transact business within the State. Detailed statements showing risks written, gross premiums received, losses paid, premiums returned and net premiums of each company were contained in the annual report of April 1st. There was collected and paid into the general fund for licenses and taxes for the year 1904, \$938.65, and for the year 1905, \$1,052.14.

INHERITANCE TAX.

The amount derived from this source for the two years beginning October 1, 1904, is \$38,481.61 collected from estates as follows:

The amount previously received was \$6,626.93, making a total of \$45,108.54 since the law went into effect May 20, 1903. The sum of \$117.75 has been expended in payment of the expenses of securing revaluation and appraisements of estates where the State Treasurer had reason to believe the appraisements were less than the market value of the property or had not been made in good faith. There are upwards of 100 estates now in process of settlement which come within the provisions of the inheritance tax law, among the number being the Mrs. S. G. Reed estate which the Supreme Court has recently held to be within the jurisdiction of this State.

The revenue from this source can be considerably increased by reducing the exemption as to estates subject to a tax from \$10,000 to \$5,000, and by reducing the exemption to the individual from \$5,000 to \$2,500. A bill embodying this suggestion is reported for your consideration by the Board of Commissioners authorized by the last Legislature for the purpose of examining and reporting upon matters of assessments and taxation.

There is the same disposition to circumvent this law as there is with all other laws requiring the payment of taxes, and this adds considerably to the work of seeing that its provisions are complied with, besides the filing of the reports and ascertaining whether appraisements are made fairly and in good faith.

To enable the State Treasurer to properly attend to enforcement of the law, provision should be made for the appointment of a special clerk in his office, with compensation commensurable with the importance of the position, and an allowance for traveling expenses, and who should be charged with the duty of investigating the appraisal of estates, and have general charge of all records and correspondence incident to the enforcement of the law, under the direction of the State Treasurer.

I think such provision, if made, would result in materially increasing the revenue from this source, as the manifold other duties devolving upon the State Treasurer prevent his leaving

the office and giving such matters the same personal attention as one specially charged with the work.

THE CAPITOL BUILDING.

As custodian of the Capitol Building and grounds, I have to report that the same are in good order and condition, except the natural decay and wear, and I believe you will find they have been economically and properly cared for. To keep the building thoroughly cleaned and heated, and to make the necessary repairs, and for the care of the grounds, there has been regularly employed the same force as for many years past, consisting of a janitor and three assistantants, a fireman, gardner, nightwatchman, and elevator operator. All the carpenter work to keep the building in order has been performed by this force, in addition to keeping all the rooms and corridors thoroughly clean.

The last Legislature appropriated \$8,600.00 for painting the exterior of the building, repairing the dome, and extending the cement walks from the east entrance. These improvements were made under the direction of the Capitol Building Commissioners. The painting has added much to the appearance of the building, as have also new doors with glass panels at the entrances, which light up the corridors.

The appearance and condition of the Capitol Building and grounds is a matter in which all the citizens of the State take a pardonable pride, and there is an almost universal desire to see these well kept. Residents from other parts of the State almost invariably visit the building when in Salem, and tourists and intending settlers are very frequent visitors. In fact, it sometimes requires almost the whole time of an employè to show these visitors about the building and grounds. To the latter class, the appearance of these is an index to the thrift and progressiveness of our people, and to have them well kept goes far toward creating in the minds of such visitors a good impression of our State and its people.

A reasonable appropriation for putting the building in good repair and making the necessary alterations and improvements

here suggested can surely meet with no opposition if due regard is had to the preservation of the property and to its general appearance.

The elevator now in use is a source of considerable complaint on the part of those having occasion to use it, particularly those having to visit the third floor. It is of ancient make, operated by hydraulic pressure from the asylum, and, owing to insufficient pressure, ascends very slowly. It can, at an expense of \$4,000, be changed to electric power, which would be a great convenience to those having occasion to use it.

The six-inch water main running from the asylum to the Capitol Building and furnishing water for irrigating the grounds and operating the elevator is in a very bad condition. It has become rusted and worn out through age, being a light steel pipe which has been in use over twenty years, and will not stand the pressure that is required. Unless this pipe is replaced with new pipe, it will be necessary to abandon this source of water supply and purchase water from the city water company at an expense of about \$800 per annum, or discontinue irrigation of the grounds and operation of the elevator. It is estimated that a cast iron water main, which would last a century, would cost, laid, about \$7,000.

The lineoleum covering the main, or second floor and corridors is badly worn. It should be replaced by tiling or tessera flooring, which would harmonize with the interior of the building and improve it from a sanitary point of view and give the many visitors to the building a better impression.

A part of the third floor is incomplete, as a result of the alteration of the Representative Hall and the removal of the library. The space formerly occupied by the library should be divided into conveniently arranged rooms for the use of the Justices of the Supreme Court, Clerk of the Court, Attorney General, State Engineer, and Library Commission. The rooms now occupied by these offices can be utilized as additional legislative committee rooms. During the sessions of the Legislature there are not enough of these rooms to accommodate many important committees, consequently as many as five are assigned

to one room to the annoyance of the members and the interruption of business. The Corporation Department, State Engineer, and Library Commission have been occupying legislative committee rooms, and in order to provide for these during the sessions it has been necessary to temporarily partition off a part of the library.

Additional room for filing papers is needed in the office of the Clerk of the Supreme Court. Should provision be made for additional rooms by partitioning the old library room, this office could be accommodated by that means, but if not, a reasonable appropriation will be necessary for the purchase of additional filing cases for that office.

The library is very poorly lighted and it would be a decided improvement if a skylight could be put in.

The printing plant should not be located in the building. On account of benzine, oil, and litter it is a source of danger from fire. Such plants are considered by fire underwriters as hazardous risks; besides, the jar from the machinery and receiving and delivering material, is a source of disturbance in the offices on the first and second floors in that part of the building in which the plant is located. The room it occupies could be used to good advantage for other purposes.

A sufficient appropriation should be made to make the changes which are here brought to your notice.

I respectfully direct your attention, as the attention of nearly every preceding legislative assembly has been directed, by the reports of this department, to the fact that there is no fire insurance covering the Capitol Building or its contents. No Legislature has authorized the placing of insurance on the building or contents, or made an appropriation to cover the cost of same. The building is equipped with a fair water system, which is inspected from time to time, and it is also guarded as carefully as possible by the janitors and nightwatchman. The approximate cost of the building and contents, excepting the library, is \$500,000. The library is increasing in value yearly. The annual rate on the building and contents charged by the insurance companies is 90 cents on the \$100; the rate for three

years being double the annual rate. If, in your judgment, the building should be covered by some insurance, an appropriation should be made therefor.

The contract entered into August 4, 1903, for lighting the several State institutions located at Salem will expire on the 31st day of March, 1908. As the next Legislature will not convene until January, 1909, it will be necessary that you make some provision for taking care of this matter, and would suggest that the Capitol Building Commissioners be authorized to make a contract for lighting these institutions similar to the present contract, if satisfactory terms as to rates can be made. If not, the board should have authority to install a central or several electric plants of sufficient capacity to provide the necessary light, and a sum should be appropriated to cover the estimated cost.

STATE CENSUS.

At page 106 will be found a summary of returns of census rolls for the year 1905, transmitted to this office in pursuance of Chapter VIII, Title XXX, Annotated Codes and Statutes, showing the population by counties, the number of each sex, and the number of persons liable to military duty, and the number of legal voters.

In accordance with the provisions of the foregoing chapter the necessary printed forms were transmitted to the clerks of the several counties in April, 1905, together with general instructions for the information and guidance of enumerators. The statute requiring this enumeration was enacted by the Legislature of 1864, and simply provides that the assessors of the several counties of the State at the time of assessing their respective counties for that year and every ten years thereafter shall take an enumeration of the inhabitants and industrial products of the State and return the rolls to the county clerk, who shall transmit the same to this office. Neither of the officials mentioned is required, nor does he consider it his duty, to compile or total such enumeration or data secured, consequently the rolls returned to this office were not totalled, except in two or three instances, and it has been necessary, in

order to obtain such totals, that the clerical force of this office, when not busy with regular business, compute the same, which has added considerably to the work of this department. We were, however, unable, owing to the fact that other duties limited the time which could be given to the work, to compile the totals of the industrial products returned. In our opinion these latter totals would be of little value, for the reason that a large portion of the returns received is manifestly incomplete and inaccurate, a number of counties showing a smaller population than that shown by the Federal Census of 1900, which, by a general knowledge and the last annual school census were known to have an increased population.

In my last report, I directed the attention of the Legislature to the existing law requiring the census to be taken, with a view to its revision or amendment so that beneficial results might be obtained, or that it might be repealed so as to save the expense which the law makes it necessary to incur without obtaining any accurate data or information.

The results obtained, compared with the expense and work of securing it, are, through its inaccuracy, a detriment to the State, as it furnishes a false report of its population and resources.

NONRESIDENT POOR.

I would renew the recommendation contained in my last report that section 2660 of the Code, providing that when any person who is not a resident of this State shall become a public charge, the expense incurred by a county in providing for such person shall be refunded by the State, be repealed, or that it be amended so as to provide a schedule of prices which shall be definite and certain, and a limitation of time during which provision may be made for such persons, and specifically defining the term "nonresident."

There are no claims presented to this office which are as difficult to audit as the claims presented under the foregoing statute. Claims aggregating a large sum are now held up for want of satisfactory proof as to the residence of the persons provided for, and for want of satisfactory evidence that the

expense claimed was the actual expense incurred. In the first place, the person whom the county provides for, is in most cases, a person having no fixed place of residence, but wandering from place to place, claiming to be in search of employment, with the intention of remaining in the county, and thus becoming a resident if employment is secured.

The courts have decided that the question of residence is largely one of intention, and that a person will become a *bona fide* resident as soon as he or she arrives in the county, if it is their intention to remain. The proof submitted with claims of this character is often so meagre and conflicting that it is impossible to satisfactorily determine therefrom whether the person is a nonresident or not.

In the second place, nearly all the counties provide for public charges in their county hospitals or poor houses, and are unable to satisfactorily show to this office the actual per capita expense which has been incurred in providing for such charges during the period for which refund is claimed. Furthermore, there appears to be a disposition in cases where the person provided for is known to be, or is considered a nonresident, to incur a much greater expense, or allow extraordinary charges, than if the person were a county charge, the expense of which would have to be borne by the county. This is done, knowing that the amounts allowed must be refunded by the State. The statute seems to give this office no authority or discretion to question any item of expense or amount charged after the expense has been incurred by the county.

CLAIM AGAINST THE GENERAL GOVERNMENT FOR EXPENSES INCURRED DURING THE WAR OF THE REBELLION.

On June 26, 1906, the claim of this State covered by a bill introduced in the Senate by Senator C. W. Fulton, at the instance of Captain John Mullan, was referred to the court of claims, under the provisions of section 14 of the Act of Congress approved March 3, 1887, known as the Tucker Act. Under this act the court has no authority to render a final judgment, but the case is to be tried and the findings of the

court certified to Congress in the nature of an advisory report.

The claim so referred is for military supplies and services, \$17,836.89; bounty and relief bonds, \$219,434.01, aggregating with principal and interest in 1889, when the account was last stated, \$390,820.10.

The controversy out of which the claim arose involves the construction of the Act of Congress of June 27, 1861 (12 Stat. at L., 276), known as the Indemnity Act, authorizing the governors of the States to recruit troops and directing the reimbursement by the Secretary of the Treasury of all costs, charges and expenses "*properly incurred.*"

The original bills for services and supplies, supported by the sworn certificates of Ex-Governor Gibbs, and Col. C. A. Reed, respectively commander-in-chief and adjutant general of the military forces of the State during the time said expenses were incurred, and the paid and cancelled warrants for payment thereof, accompanied by copies of the State legislation on the subject, together with the lists of bounty and relief bonds, were duly certified by the Secretary of State and State Treasurer and transmitted during the year 1882 by R. P. Earhart, Secretary of State.

The Treasury Department and the War Department held in the case of the State of Nevada that expenses "properly incurred" were those expenses which were ordinarily incurred by the War Department in organizing troops, and disallowed all the expenditures for extra pay, etc., of the character embraced in the claim. After this decision, other evidence tending to show that the expenses incurred were for bounties and extra pay, and enlisting, equipping and drilling troops during the said war, solely for services actually rendered the United States, was prepared and transmitted to Captain Mullan and a bill introduced by Senator Dolph, providing for examination by the Secretary of War of the account and evidence in support of the claim, which bill passed the Senate, but failed to become a law. At subsequent sessions of Congress bills were introduced providing for examination of the claim, but failed of enactment.

Captain Mullan, in whose hands the claim was placed by Secretary of State R. P. Earhart in 1882, and who claims to have presented it, deemed it advisable to have some firm associated with him in the trial of the case before the court of claims, recommending the firm of Ralston & Siddons, of Washington, D. C., which firm is acting as counsel jointly with him in a similar claim of the State of Nevada; said firm having given the questions long and careful consideration in connection with that case.

It was requested that new appointments be made in the names of Captain Mullan and Ralston & Siddons, and that they receive as compensation for their services in the case a contingent fee of ten per centum of the amount recovered for the State, the compensation to cover all attorneys' services performed by Captain Mullan or Ralston & Siddons, and all other costs and expenses, the employment to be based upon the authority provided by paragraph 4 of section 2397, Bellinger and Cotton's Code, which authorizes the Secretary of State "to direct and superintend the collection of all moneys due to the State * * * and any or all attorneys employed by the Secretary in behalf of said State shall be entitled to receive as a compensation ten per centum on all moneys collected by him or them in pursuance of this Act, to be audited and paid the same as other accounts against the State."

The matter was referred to the Attorney General, who anticipated visiting Washington, with instructions to inquire into the necessity of employing attorneys in the matter, also the reputation of the attorneys recommended, and in the event he was satisfied the attorneys were necessary to arrange form of appointment and contract for compensation. Upon the Attorney General's return he reported he was satisfied it was necessary to employ counsel, and that he had made arrangements with said firm of Ralston & Siddons and Captain Mullan as attorneys for the State in Washington to assist in preparing a petition and presenting the matter to the Court of Claims to find the facts, and an agreement, subject to my approval, by which those parties were to receive ten per centum of any money collected by reason of their services, the compensation

being wholly contingent upon success in collection, which agreement he advised me to execute, authorizing said attorneys to appear in said Court of Claims and represent the State.

The matter was also referred to the Governor, who sanctioned the agreement and advised its execution, inasmuch as he had been in correspondence about the matter for three years past and was familiar with the facts out of which the claim grew.

Therefore, by virtue of authority provided by section 2397, Bellinger and Cotton's Code, I appointed Captain John Mullan and the firm of Ralston & Siddons, of Washington, D. C., as attorneys for the State of Oregon, to represent the same in the prosecution before the United States Court of Claims, before Congress and the Executive Departments of the Government in the matter of the claim of said State for expenses incurred and moneys paid in raising troops for the service of the United States during the Civil War; and, in consideration of their services, fixed the compensation at ten per centum of such moneys as may be paid to and received by said State on account of such claim, of which amount one-half to be payable to John Mullan and one-half to the firm of Ralston & Siddons, appointment to remain in force until the first day of January, 1909, when the rights of said attorneys shall cease and determine, except in so far as prior to said date judgments or findings in favor of the State may be obtained; the appointment being made by virtue of the authority conferred by paragraphs 4 and 6 of section 2397, Bellinger and Cotton's Code.

It was further agreed that all moneys collected on account of the claim shall be paid into the treasury of the State and the compensation of the attorneys shall be audited and paid the same as other accounts against the State.

As no money can be drawn from the treasury but in pursuance of appropriations made by law, an act should be passed appropriating ten per centum of any moneys collected by reason of the services of these attorneys and paid into the State Treasury, and authorizing the Secretary of State to audit and pay their claim the same as other accounts against the State.

ADDITIONAL CLERICAL AID.

Increase in the volume and importance of the business and correspondence in this office is such that the appropriation "for the salaries of clerks and stenographers in the office of the Secretary of State" should be increased to provide for two additional clerks and a slight increase in the compensation of the stenographers. This is a matter of real necessity in order to keep up the current work of the office as it should be kept up. During the past two years, with the large increase of business, working many nights each week and Sundays, it has been barely possible for the present force to handle the business. Much has to be done hurriedly and some matters that ought to be attended to have to be left undone. It is not reasonable or right that clerks should be obliged to work more than eight hours a day. Since 1899 there has been no increase in the clerical force of the office except that occasioned by the enactment of the corporation tax law in 1903. The statute providing that the expenditures of moneys for pay of clerical aid in the office shall not exceed the appropriation, therefore, I have been obliged to personally provide for additional aid to care for pressing business.

The work required of all clerks in this office is of the most responsible and exacting nature. During the period covered by this report, claims aggregating more than \$2,500,000 have been audited. Accounts are kept showing all the receipts and disbursements of the State Treasurer. Licenses and taxes are collected from the insurance companies, also corporation organization and license fees, aggregating nearly \$70,000 per annum. This office is also charged with the sale of the session laws and supreme court reports, and the distribution of all public documents and the election blanks and supplies, besides the additional work due to the direct primary nominating elections law, involving the examination and filing of petitions, certifying to nominations, etc.; also the compiling of the census returns, and a vast number of other duties too numerous to mention, all of which call for a vast amount of correspondence. During the period covered by this report 10,739 claims amounting to \$2,559,680.42 have been audited and allowed, and 28

claims aggregating \$4,109.80 disallowed and filed for presentation to the Legislative Assembly, as provided by statute.

Every additional office or board created by legislative enactment, either directly or indirectly, increases the volume of work of the office and it would seem, therefore, only just on the part of the State to furnish adequate help to properly perform the important duties which devolve upon this department; also to pay salaries commensurate with the labor performed and responsibilities imposed upon the clerical force.

BOUNDARY LINE BETWEEN UMATILLA, UNION AND WALLOWA COUNTIES.

The report of the Commission created by Chapter 17, Laws 1905, to establish the boundary line between Umatilla and Wallowa counties and Umatilla and Union counties has been received and filed, and will be submitted for your consideration as the law directs.

INCORPORATED CITIES AND TOWNS.

Under the provisions of the general law, sections 2687-2692, of Bellinger and Cotton's Annotated Codes and Statutes of Oregon, the following named cities and towns have filed copies of the orders of incorporation, made by the county courts in which the respective cities or towns are situated:

| | | | |
|-----------------------------|-------|---------|--------------|
| City of Bend, Crook County, | Filed | January | 19, 1905. |
| Town of Monument, Grant | do | do | March 6, do |
| City of Umatilla, Umatilla | do | do | May 8, 1906. |
| City of Coburg, Lane | do | do | June 7, do |

VETOED BILLS.

The following comprises a list of bills passed by the last Legislature, and vetoed by the Governor after adjournment, and filed in this office with his objections thereto, which, in accordance with the provisions of the Constitution, will be returned to the respective houses in which the same originated, for consideration:

Senate Bill No. 13, amending the statutes relating to fish and fisheries.

Senate Bill No. 17, providing for the better protection of the salmon industry of the Columbia River.

Senate Bill No. 124, authorizing the calling of an annual convention of county school superintendents, and providing for the payment of their traveling expenses.

Senate Bill No. 156, providing for a board of control of State institutions.

Senate Bill No. 191, defining fraternal beneficiary associations and regulating and controlling the same.

Senate Bill No. 209, to vacate the public square and certain streets in LaGrande.

Senate Bill No. 223, changing the boundary line between Marion and Linn counties.

Senate Bill No. 238, creating the office of deputy constable for Portland district.

Senate Bill No. 263, amending the statutes relating to graduates from normal schools.

House Bill No. 95, regulating the sale of commercial fertilizers.

House Bill No. 147, providing for the better enforcement of the laws governing the salmon industry of the State.

House Bill No. 295, to provide for voting on sheep and goats running at large.

House Bill No. 312, establishing the Rogue River road district, and providing for a wagon road connecting Josephine and Curry counties.

House Bill No. 333, amending the statutes relating to the collection of mileage by sheriffs.

House Bill No. 377, authorizing the board of trustees to relocate the Deaf Mute School.

PROPOSED LAWS AND AMENDMENTS SUBMITTED TO THE PEOPLE.

Under the provisions of Section 1 of Article IV of the Constitution and an act making the same effective, five laws and five amendments to the Constitution were proposed by initiative petitions, filed in this office and duly submitted to the people at the general election held June 4, 1906, for enactment or rejection. Following is a list of the measures, with the vote cast thereon, the first three not being approved by a majority of the votes were thereby rejected. An enacting clause being omitted from the bill for a law prohibiting free passes and discrimination by railroad companies and other public service corporations, it was in the opinion of the Attorney General void and of no force and effect. The remaining six

were, by proclamation of the Governor, dated June 25, 1906, declared duly enacted and in force and effect from that date.

The total number of ballots cast at said election, as shown by the poll books, was 99,445 :

REJECTED.

Article II, Section 2, "Equal Suffrage Constitutional Amendment." Yes, 36,902; No, 47,075.

"Amendment to local option law giving anti-prohibitionists and prohibitionists equal privileges." Yes, 35,297; No, 45,144.

"Law to abolish tolls on the Mount Hood and Barlow Road, and providing for its ownership by the State." Yes, 31,525; No, 44,527.

ENACTED.

Article XVII, Section 1, "Constitutional amendment providing method of amending constitution and applying the referendum to all laws affecting constitutional conventions and amendments." Yes, 47,661; No, 18,751.

Article XI, Section 2, "Constitutional amendment giving cities and towns exclusive power to enact and amend their charters." Yes, 52,567; No, 19,852.

Article XII, Section 1, "Constitutional amendment to allow the State printing, binding and Printer's compensation to be regulated by law at any time." Yes, 63,749; No, 9,571.

Article IV, Section 1 a, "Constitutional amendment for the initiative and referendum on local, special and municipal laws and parts of laws." Yes, 47,678; No, 16,735.

"An act requiring sleeping car companies, refrigerator car companies and oil companies to pay an annual license upon gross earnings." Yes, 69,635; No, 6,441.

"An act requiring express companies, telegraph companies and telephone companies to pay an annual license upon gross earnings." Yes, 70,872; No, 6,360.

VOID.

"Bill for a law prohibiting free passes and discrimination by railroad companies and other public service corporations." Yes, 57,281; No, 16,779.

I respectfully renew the suggestions in my last report that the law of 1903 (Laws 1903, p. 244), making effective the initiative and referendum provisions of Section 1 of Article IV of

the Constitution of the State of Oregon be amended. It provides that every sheet for petitioners' signatures shall be attached to a full and correct copy of the title and text of the measure proposed by the initiative petition. It will be seen that under this provision there are as many copies of the proposed measure filed with the Secretary of State as there are sheets for petitioners' signatures, and in instances where the measure is lengthy, as in the case of the petitions for the amendment to the local option liquor law, and the bills requiring certain corporations to pay an annual license tax, they made a package so bulky, cumbersome and voluminous that it was utterly impossible to arrange them so as to permit of ready reference and at the same time preserve them in tact.

Therefore if a proposed measure is enacted and the petitions and copies thereof become the original law such large space in the file is required to preserve the same, that I would suggest that the law be so amended as to authorize the Attorney General or some other State official to examine all petitions for the enactment of laws which may be filed in the office of the Secretary of State and to attach the sheets containing the signatures and certificates to one copy of the law and eliminate all others. The one copy of the law and all petitions therefor, together with copies of the Governor's Proclamation should then be arranged and bound in convenient form for future reference and preservation.

I desire also to call attention to the requirement of the law that the Secretary of State shall have a sufficient number of copies of the proposed measure printed and bound so as to furnish one copy to every voter in each county in the State. Under this provision we were required to furnish 100,000 copies of each of the measures for each initiative petition having the requisite number of signatures filed in this office at an expense of

| | |
|--------------------|--------------------|
| For paper | \$ 1,017 00 |
| For printing | 3,742 00 |
| For binding | 1,610 00 |
| Total | \$ 6,369 00 |

This number of copies I believe to be largely in excess of the number actually used or required, and I believe may be re-

duced one-third and still provide sufficient number to supply each voter who desires a copy thereof, and result in saving to the State quite a large sum.

The act also requires the Governor to issue his proclamation announcing the filing of each petition, with a brief statement of its tenor and effect, which shall be published four times in four consecutive weeks in one daily or weekly newspaper in each judicial district in the State; also after the returns of the election have been received and canvassed to issue his proclamation, which shall be published the same as the other proclamation, giving the number of votes cast for and against each measure in question, and declaring such as are approved to be in full force and effect from the date of said proclamation.

The expense of the publication of the proclamations for the initiative petitions is about \$4,000. The appropriation for the payment of this expense being only sufficient to pay \$1,999.70 thereof, certificates of audit and allowance for the balance were issued and it will be necessary to make appropriation therefor, and also materially increase the appropriations to meet future expenses of this character, in the event no changes are made in the existing law.

INFORMATION CONCERNING THE RESOURCES OF OREGON.

This office receives many requests for information regarding the resources, advantages, and opportunities of Oregon, from those who desire to locate or invest within the State. As far as possible we have responded to these requests by forwarding special editions of newspapers and such miscellaneous pamphlets as we have been able to obtain, or by referring the request to the Chamber of Commerce of Portland, or other local commercial bodies, where the information desired is concerning some particular section.

Other States, notably Washington and Wyoming, issue nicely illustrated and compiled pamphlets of their resources, which it is reported have materially aided and induced emigration to those States.

Large appropriations have been made from time to time by the State for the exhibition of its products, industries, and

manufactures at expositions, both at home and in other States; and at this session of the Legislature appropriations will be sought for the expositions to be held in the States of Washington and Virginia. In this connection I believe that an illustrated book, carefully compiled and written, giving reliable statistical and descriptive matter, setting forth the advantages of the State, published by its authority, which is considered more reliable than if issued through other sources, would accomplish equal results, if not in some respects be more effective in attracting desirable settlers or investors to the State than the cost of such a book expended in an exposition. Would therefore suggest that a portion of any appropriation made for the purpose of representing Oregon at any exposition be expended for compiling and publishing a book containing information of its resources for distribution by this office.

CONCLUSION.

In conclusion, I desire herewith to extend to my associates of the various State Boards and Commissions, namely, the Governor, Treasurer, and Superintendent of Public Instruction, my sincere appreciation of their efforts at all times and on all occasions to carefully protect the welfare and interests of the State and to thank them for the courtesy and spirit of fairness they have manifested in their association with me as a member of such Boards or Commissions.

I also wish to make acknowledgment of the advice and aid received from the Attorney General. I have had occasion frequently to request his oral advice and his written opinions, which have always been willingly and cheerfully given, and have been so full and clear, that they have been accepted and followed without hesitation.

I further desire to commend the employés of this Department upon the energy, dispatch and fidelity with which the work of the office has been performed. To them is due the credit of handling the large volume of business that has passed through the Department in a thorough and creditable manner.

Respectfully submitted,

FRANK I DUNBAR,
Secretary of State.

STATEMENT I.

Showing balance on hand September 30, 1904, and summary of cash receipts and disbursements from October 1, 1904, to September 30, 1906, inclusive, per State Treasurer's duplicate receipts and schedule of disbursements filed.

GENERAL FUND. EXHIBIT "A."

This fund embraces all the revenue of the State applicable to the payment of the ordinary expenses of the State government.

The sources from which it is derived are taxes, insurance licenses, taxes on insurance premiums, fees of the Supreme Court, corporation fees and licenses, taxes on inheritances, board of United States prisoners, etc.

The expenditures therefrom are authorized by permanent and biennial appropriations upon warrants issued by the Secretary of State.

COMMON SCHOOL FUND—PRINCIPAL. EXHIBIT "B."

The irreducible school fund is composed of (1) the proceeds of the sales of the 16th and 36th sections of every township in the State or of lands selected in lieu thereof; (2) the proceeds of the sale of the 500,000 acres of land to which the State is entitled by the provisions of an act of Congress,

STATEMENT I—Continued.

approved September 4, 1841; (3) all moneys accruing to the State by escheat or forfeiture; (4) the proceeds of all gifts, devises and bequests to the State for common school purposes; (5) the proceeds of all property granted to the State when the purpose of such grant shall not be stated; (6) all fines and penalties for violation of the laws regulating the practice of medicine, and is invested by the State Land Board for the benefit of the public schools of the State.

Expenditures therefrom are made for repayments of purchase moneys and in payment of expenses of escheat cases upon duly approved claims, upon warrant of the Clerk of the State Land Board, and upon loans of the State Land Board on real estate in this State of not less than thrice the value of the amount loaned exclusive of perishable improvements.

THURSTON MONUMENT FUND—PRINCIPAL. EXHIBIT "E."

This fund is derived from the amount of certain promissory certificates in payment of the per diem from February 16, 1849, in favor of Hon. Samuel R. Thurston, the first delegate in Congress from the Territory of Oregon, while a member of the Provisional Government of Oregon Territory during the session of 1848-1849, received in payment for his per diem, which was not paid for want of funds, and remained unpaid in accordance with the provisions of the act of February 21, 1890 (Laws 1891, pages 1014-1015).

Under the provisions of said act it was made the duty of the State Board of Land Commissioners to loan said fund at six per centum per annum.

TIDE LAND FUND. EXHIBIT "H."

This fund is derived from the sale of tide lands, tide flats and sand islands not connected with the shore, acquired by the State by virtue of her sovereignty, and is credited to and made a part of the common school fund, under act approved February 18, 1899.

Disbursements therefrom are made on warrants of the Clerk of the State Land Board for repayment of purchase moneys for lands to which the State can not give title, upon approval by the State Land Board, and transferred to the account of the irreducible school fund.

STATEMENT I—Continued.

OREGON STOVE FOUNDRY FUND. EXHIBIT "K."

This fund is derived from the sale of stock belonging to the State Stove Foundry at the Oregon State Penitentiary, located at Salem, Oregon, from rental of the plant and from the settlement made with the Lowenberg & Going Company and the Northwest Stove Foundry, authorized by the Legislative Assembly of 1899.

Expenditures therefrom are made for necessary repairs and improvements at the plant of the said stove foundry, upon duly verified claims.

UNITED STATES FIVE PER CENT LAND SALES FUND.

EXHIBIT "L."

This fund is derived from the Federal Government under act of Congress. The amount thereof is annually distributed among the several counties within the State according to the area thereof, to be used only for the purpose of building, improving, and maintaining county roads and bridges, under act of the Legislative Assembly approved February 1, 1893.

STATEMENT I—Continued.

HATCHERY FUND. EXHIBIT "N."

The sources from which this fund was derived were the annual license fees for individual licenses, for fishing appliances, for those engaged in the business of canning fresh salmon, for those engaged in the business of buying, selling, packing, or otherwise dealing in salmon fish or sturgeon, other than canners, and all fines, penalties and judgments which accrue, and the moneys in the several hatchery funds transferred pursuant to the provisions of the act filed in the office of the Secretary of State February 28, 1901.

Disbursements therefrom were made on warrants of the Secretary of State upon duly verified claims approved by the Board of Fish Commissioners for the purpose of building and erecting hatcheries and in payment of services and expenses of water bailiffs.

BOUNTY FUND. EXHIBIT "Q."

This fund was derived from a levy of a tax of one mill on the dollar upon all taxable property in the State for the year 1900, for the purpose of creating a fund for the payment of warrants outstanding and unpaid and drawn against the "State scalp bounty fund," pursuant to the provisions of the act of February 18, 1899 (Laws 1899, pages 129-132), and from an appropriation from the "general fund" of \$7,744.81, pursuant to the provisions of an act filed in the office of the Secretary of State February 19, 1903.

Disbursements therefrom are made in payment of warrants drawn on the "State scalp bounty fund" and the "bounty fund" pursuant to the provisions of the acts of February 18, 1899, February 26, 1901, and January 30, 1901.

STATE AGRICULTURAL COLLEGE FUND. EXHIBIT "S."

This fund is derived pursuant to the provisions of the act of February 6, 1901 (Laws, 1901, page 13), which provides there shall be levied and collected annually in the same manner as other taxes for State purposes are levied and collected the sum of \$25,000 for the annual support and benefit of the State Agricultural College.

Disbursements therefrom are made upon warrants of the Secretary of State, issued quarterly, upon written request of the Treasurer of the Board of Regents of the State Agricultural College, countersigned by the secretary, for the purpose of paying the current expenses, the salaries of professors and instructors, wages of employes, buildings, improvements and repairs, etc., of the State Agricultural College.

STATEMENT I—Continued.

PENITENTIARY BETTERMENT FUND. EXHIBIT "U."

The source of this fund is the compensation received for the labor of the convicts at the Oregon State Penitentiary.

Disbursements therefrom are made upon warrants of the Secretary of State in payment of claims incurred under the supervision of the Governor in making improvements upon, adding to the buildings, and other improvements as needed from time to time at the Oregon State Penitentiary, pursuant to the provisions of an act filed in the office of the Secretary of State February 24, 1903.

PORTAGE RAILWAY OPERATION AND MAINTENANCE FUND.

EXHIBIT "W."

The sources from which this fund is derived are from transfers from the appropriation of \$25,000 contained in chapter 66 of the General Laws of 1905, for repairing and purchasing equipment and for the general and contingent expenses necessary in the equipment, operation and maintenance of the State Portage Railway between The Dalles and Celilo in Oregon, and all funds received from any source in the operation and conducting of said railway.

STATEMENT I—*Concluded.*

Disbursements therefrom are made on warrants issued by the Board of Portage Commissioners for the purpose of operating and maintaining the said railway.

STATEMENT X—EXHIBIT "B"—Concluded.

EXHIBIT "B."

The following table shows—

First—The proportion of the State taxes paid by the several counties of the State, as set out in the table set forth in paragraph 4 of section 3061 of Bellinger and Cotton's Annotated Codes and Statutes of Oregon, as amended by an act approved February 24, 1908 (Laws 1908, pages 302-304).

Second—The total amount of revenue raised for the fiscal year ending December 31, 1905, for State purposes, not provided for by a special tax duly authorized by law, and apportioned to each county of the State of Oregon, levied and collected and paid into the State treasury by each of said counties in the manner provided by law, being the resulting per cent apportioned to each of said counties of the sum of one million dollars (\$1,000,000), as set out in the before mentioned table, the said sum of one million dollars (\$1,000,000), being the total revenue raised by taxation for State purposes for the fiscal year ending December 31, 1905.

Third—The amount raised for the annual support and benefit of the State Agricultural College, which was levied and collected in the same manner as other taxes for State purposes are levied and collected, provided by Section 3541 of Bellinger and Cotton's Annotated Codes and Statutes of Oregon, and apportioned to each county of the State of Oregon, levied and collected and paid into the State treasury by each of said counties in the manner provided by law, being the resulting per cent apportioned to each of said counties of the sum of twenty-five thousand dollars (\$25,000), as set out in the before-mentioned table, the said sum of twenty-five thousand dollars (\$25,000) being the sum computed in accordance with the provisions of the aforesaid section for the support and benefit of the State Agricultural College.

| County. | Per cent of the state taxes paid by the several counties. | Amount of revenue for State purposes raised by taxation and apportioned to each county, levied, collected and paid into the State treasury. | Amount raised by taxation and apportioned to each county for the annual support and benefit of the State Agricultural College, levied, collected and paid into the State treasury. | Totals. |

STATEMENT XI—EXHIBIT "B"—Concluded.

EXHIBIT "B."

The following table shows—

First—The proportion of the State taxes to be paid by the several counties of the State, as set out in the table set forth in paragraph 4 of Section 3001 of Bellinger and Cotton's Annotated Codes and Statutes of Oregon, as amended by an act approved February 24, 1903 (Laws 1903, pages 302-304).

Second—The total amount of revenue to be raised for the fiscal year ending December 31, 1906, for State purposes, not provided for by a special tax duly authorized by law, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State treasury by each of said counties in the manner provided by law, being the resulting per cent apportioned to each of said counties of the sum of six hundred thousand dollars (\$600,000), as set out in the before mentioned table, the said sum of six hundred thousand dollars (\$600,000), being the total revenue to be raised by taxation for State purposes for the fiscal year ending December 31, 1906.

Third—The amount to be raised for the annual support and benefit of the State Agricultural College, which shall be levied and collected in the same manner as other taxes for State purposes are levied and collected, provided by Section 3541 of Bellinger and Cotton's Annotated Codes and Statutes of Oregon, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State treasury by each of said counties in the manner provided by law, being the resulting per cent apportioned to each of said counties of the sum of twenty-five thousand dollars (\$25,000), as set out in the before mentioned table, the said sum of twenty-five thousand dollars (\$25,000) being the sum to compute in accordance with the provisions of the aforesaid section for the support and benefit of the State Agricultural College.

| County. | Per cent of the State taxes to be paid by the several counties. | Amount of revenue for State purposes to be raised by taxation and apportioned to each county, to be levied, collected and paid into the State treasury. | Amount to be raised by taxation and apportioned to each county for the annual support and benefit of the State Agricultural College, to be levied, collected and paid into the State treasury. | Totals. |

| Totals | 464,588 | 257,076 | 237,462 | 554,576 | 317 | 4,871 | 3,023 | | |

* No returns. Estimated upon the same average percentage of increase of other counties over Federal census of 1900.

NOTE.—The foregoing figures are generally regarded as manifestly incomplete and incorrect. The counties showing a smaller population than that given by the Federal census of 1900 are, by general knowledge and the last annual school census, known to have increased. It is also known that there are many more Indians in Klamath and Crook counties than are shown in the returns. The total population of this State is believed to be at least 600,000.

STATEMENT III—EXHIBIT No. 1.

SALMON HATCHERIES ON COAST STREAMS.

(For constructing and erecting suitable hatcheries on streams flowing to the Pacific Coast south of the Columbia River out of funds appropriated for the construction of hatcheries for the propagation of salmon fish.)
